DAKOTA SECURITY AWARDED MULTI-YEAR, CONTRACT WITH HSBC BANK

Ridgefield, NJ - Dakota Security Systems announced that it has been awarded a multi-year contract to upgrade electronic security systems for HSBC Bank locations throughout the United States. HSBC bank is currently one of the largest banks in the world with a strong and rapidly growing presence across North America.

“We are very privileged to be awarded this contract and to further strengthen our relationship with HSBC,” said Eric Yunag, President and CEO of Dakota Security Systems. “The dedication of our employees and their commitment to customer service clearly demonstrate that those values are important to end-users no matter who we are competing against. Their willingness to do whatever it takes to deliver a project of this magnitude is our single biggest competitive advantage. We look forward to strengthening that advantage by taking exceptional care of this customer in the coming years.”

Dakota Security Systems, Inc. is a security systems integration company based in Sioux Falls, SD. The company’s focus is creating partnerships with their customers by understanding their unique security challenges and delivering functionally superior solutions to address those needs. The company has a network of regional offices in strategic locations throughout the country to provide design, implementation and support to their customers. Dakota Security is a privately-held company, providing exceptional customer service for a demanding customer base for over thirty years. For more information, please visit www.dakotasecurity.com.
